

WHISPERS FOR END OF 2010 AND BEYOND REVEALED

1. Next year, you who are reading this write up, expect a ground breaking achievement. Your very few special surprises and first breakthrough of the year is from 1st to 16th of February 2011. However, uphold Nigeria in prayer against religious, Political, ethnicity and intolerance from dividing us in 2011
2. It is also a year of church drop outs from Nation to Nation because people will be tired of church without results
3. Dreams are whispers and echoes from God to man. So pray to receive from God this New Year in dreams. It is very important
4. Facebook will kill millions of married people this year. Couples be warned
5. Niger Delta freedom fighters to become Judas after the governors and Mr. President leading to the death of tough militant leaders in first quarter of the New Year
6. 2011 is a year of exposure of dirty rogues of this regime from state to state
7. Uphold 2/3 of the present Governors in prayer or they will leave Nigeria in a messy state but end in jail from 2011 ending. They are mere cosmetic and window dressers
8. Incumbent government will manipulate elections of most governorship aspirants who are peoples' choices and throw them out of contest in 2011
9. Watch out 95% of those in Jonathan's government from state to state cannot win elections unless rigged. But they cannot rig out popular candidates without expecting violence in return
10. Those defending Nigerian politicians as if they are gods - as least ambitious, as error prone, because they are from a particular region is enough reason they can make their lives change in the least bit, are in for the rudest shock in 2011 because they are human. When all those recruited by this regime unmask the masquerade in 2011, Nigerians will see liars, corrupt, incompetent, imposters who have been parading themselves as governors, senators, presidents etc.
11. More deaths of notorious militant leaders, Governors, Senators, Reps Members to greet the New Year. Also death of popular Pastors, Emirs, Journalists, Musicians etc
12. Political tsunami to sweep South West PDP governors in 2011.
13. Nigeria to go broken in 2011 if serious prayers are not offered

- 14 University students, pray because 2011 is a bad year for you. I see your academic sessions being disrupted. PDP – the biggest political party in Africa to go down, sink, be exposed, shamed, due to selfish ambition of leaders and sycophant players.
- 15 Agent venom working 24/7 to destabilize ACN, ANPP – watch out. The same people also working to deplete the number of delegates that will vote in a particular presidential candidate. In anger, PDP top shots to decamp en mass to ACN, CPC and APGA but to return to PDP as per reconciliation 3 years after
- 16 Next government will build modern hospitals in Nigeria that will stop the trend of Yar'Adua flown abroad, Ojukwu – flown abroad news. Uphold our leaders in prayers or expect worst fights in January between the following – IBB, Jonathan, Atiku, Mark, Bankole, IG/Ringim, Dikko, Waziri, Ciroma, Yakassai, Saraki, Kwande, Gbenga, Tinubu, Anineh, Clarke, Abacha family, Kalu, Odilli, Nnamani, Igbinedion etc.
Reasons for the fight being division over the choice of flag bearer and knee jerk tribal instincts resulting in anarchy which might destroy Nigeria via the use of bad-news, disorder, political lunacy, vandalization, catastrophic disintegration of Nigeria. Nigerians, use the lifebuoys of prayers in 2011, raise prayer against military intervention, yet it might be the only option to prevent unprecedented catastrophic events currently awaiting West Africa to bring sanity in African Nations. Allah sariki – lets pray to waive away all that God has shown. Thanks
- 17 ACN waiting for PDP to chose its Presidential flag bearer and whomsoever PDP rejects, ACN and APGA will come together to embrace him, making PDP as good as dead. In 2011, regional politics and parties will win more states than National party. Ibo states to win via APGA, Yoruba to win via CAN, Hausa via CPC. I do not foresee PDP having majority in both houses of the NASS again come 2011. PDP decampees to win under regional parties but to return to PDP as reconciliation after 3 years
- 18 Strong strategic plans to run down a presidential candidate before 13th January 2011. Expect miserable looting “Merry Go Round” from state to state in January 2011
- 19 2011 will usher in state government Police and state government militia to defend states. A sign and symbol of a failed nation or state where there is no more direction, win election by crook, visionless leaders
- 20 Worst massacres to cause drift to Abuja in 2011 from the 19 Northern states as well as Bayelsa, Delta, Imo, Akwa Ibom etc. Abuja soon to be overstretched. Expect Bus and Air Bombers in Nigeria before election. Please pray against these things
- 21 National Assembly to pass a last self-serving law to enrich few of them leading to fight between them. ACN, CPC, APGA be careful of fake decampees in January because there is danger ahead for you.

- 22 Nigerians pray for a President and government that can give ordinary people Houses, create Jobs, keep our streets safe, give us electricity, Medicare first and pay later policy, peace, justice, freedom as in Blackman's land, these things are absent
- 23 Watch out in 2011, the fate that befell AD will befall PDP because Nigerians are fed up with promises and no action
- 24 Jos bomb blast not the last of the sad events. Expect suicide Bombers in churches, mosques and rallies during forthcoming elections. 12 states are right now breeding grounds and practical fields for terrorist (Bokko Haram and Mend) including Abuja city. Jos Christians soon to fight Army and Police with more sophisticated weapons and strategies.
- 25 Pray against worst form of terrorism in 2011. United States of America with all her sophistication cannot overcome terror therefore, let us pray for mercy in Africa
- 26 Uphold the national government in prayer concerning Jos matter, I foresee spill over to other LGC and neighboring states. Most delicate matter before Jonathan and if he does not handle it with care, it is capable of splitting Nigeria
- 27 I foresee Niger Republic guys recruited in January and camped from state to state for training on how to make local bombs using fertilizer. Government must watch out quickly
- 28 With prayers God can turn Nigeria around for good in 2 years and all agitations will disappear remaining reduced criminality
- 29 Pray for Zamfara, Kano, Borno, Sokoto, Zaria not to be used as al-Qaida bases.
- 30 Pray against daily negative news due to any situation that will make Nigerian burn
- 31 Pray against calls for cancellations of 2011 elections from state to state
- 32 I foresee installation of an Emir and an Emirate Council in Jos and Benue from 2018
- 33 State governments are to be powerless against riots in 2011 leading to Army take over from street to street in Nigeria
- 34 After North and South Sudan go their separate ways from January 2011, expect more African nations to do the same thing
- 35 Pray against a new pattern of evangelism in Nigerian from 2011 by all Religions - 'Convert to my Religion or Die' – by people holding guns and machetes

- 36 Pray for Fulani in West Africa to take a decision that 'Mercy and Forgiveness' will be included in their agenda instead of declaration of war after their meeting - ***The Lord revealed to me that this meeting is scheduled to hold in one African country immediately after the New Year celebrations***
- 37 The Lord said in our prayers, we must not rule out **COMPLEXITY** of some Army, Police, SSS, Traditional Rulers, Politicians, taking sides in the bombing bedeviling Nigeria. May God expose some suspicious security heads handling security affairs from state to state
- 38 Pray against genocide of Ibos, Yorubas in some Northern Nigerian states after Presidential primaries with reprisal attack, colossal disaster, bloodshed, Desecration of churches and mosques in the North - if result of polls be not favorable
- 39 Iran to ship more arms to African Nations to use against ourselves early 2011
- 40 Jonathan will be forced against his wish to send troops to a Northern community, Eastern community and another Niger Delta community to sack evil doers leading to international troops camping around Nigeria and Jonathan being taken to International court of Justice if not prayerful
- 41 Investigations into sectarian killings to again yield nothing as many in government and retired will be indicted
- 42 What is happening now in Nigeria is only the beginning - More terrible things ahead from Jos to Yola and Lagos
- 43 Sambo pray for the North not to disown you in the New Year
- 44 Beroms put your house in order to curb internal divisions that will destroy the tribe and make you pack out of Jos which is coming. Leaving Jos for those you tagged enemies
- 45 Worst bias reporting by journalists to be seen in Nigeria after New Year.

O! GOD - HELP NIGERIA AS WE PRAY
